## DR KURTZMAN

Dr. Kurtzman is in private general practice in Silver Spring, Maryland and is a former Assistant Clinical Professor at the University of Maryland, Department of Endodontics, Prosthetics and Operative Dentistry. He has lectured both nationally and internationally on the topics of Restorative dentistry, Endodontics and Implant surgery and prosthetics, removable and fixed prosthetics, Periodontics and has over 150 published articles. He is privileged to be on the editorial board of numerous dental publications, a consultant for multiple dental companies, a former Assistant Program Director for a University based implant maxi-course he has earned fellowship in the AGD, International Congress of Oral Implantology, Pierre Fauchard Academy, American College of Dentists, Mastership in the AGD and Prosthetic Section of the ICOI and Diplomat status in the ICOI. For further information on Dr. Kurtzman or a listing of his published articles visit [www.maryland-implants.com](http://www.maryland-implants.com).

### Lecture highlights:

1. Treatment planning to achieve esthetics  
How to plan esthetic cases to satisfy both the practitioner and patients expectations, from treatment planning through waxups, to stents and onto the clinical restorations.
2. Soft Tissue Management for restorative treatment  
Management of soft tissue to improve the esthetic aspects of restorative dentistry. Determining when to lengthen the incisal, or adjust the gingival tissue to achieve the best results.
3. Provisional Restorations: Techniques for easier temporaries  
Easy techniques for provisionalizing indirect restorations and how to use provisionals as a guide for the lab to fabricate the final restorations.
4. Identifying and Correction of Impression Errors  
How to take great impressions and identify issues when problems occur with your impressions.
5. Direct Resin Restorations: Achieving complex results with simple techniques  
Understanding bonding and what the latest materials can do to improve the quality and longevity of your direct restorations while providing better esthetics.
6. Occlusion and protecting your restorative treatment  
How occlusion impacts on the longevity of your treatment and how to fabricate occlusal guards.
