Dr Simon

Dr. Simon maintains a private practice limited to periodontics, dental implants and reconstructive surgery in Beverly Hills, California. He obtained his dental degree and Bachelor of Medical Sciences degree from Tel Aviv University, where he held a teaching position in the Department of prosthodontics. He received his periodontal graduate degree from the University of Toronto where he obtained a Master of Science degree in Periodontology. He is a Diplomate of the American Board of Periodontology and a Fellow of the Royal College of Dentists of Canada.

Dr. Simon is the founder of the Beverly Hills Multidisciplinary Dental Study Group and a director of the Beverly Hills Academy of Dentistry. Dr. Simon publishes and lectures nationally as well as internationally on smile design, implant dentistry and tissue reconstruction.

This Seminar will cover:

- Treatment options for the “gummy smile”
- Esthetic crown lengthening
- Soft tissue grafting for gingival recession
- Surgical lip repositioning
- Soft tissue management around implants
- The use of soft tissue allografts and enamel proteins avoiding donor site morbidity
- Improving the zone of attached gingivae and preventing further recession
- Coronally repositioned flaps for root coverage
