Date & Time:

Sunday, November 15, 2026, 9:00 AM - 4:00 PM Pacific Time (US & Canada)

Duration: 7**Recognition and Management of Medical Emergencies in the dental Office**

Medical emergencies, though infrequent, can occur at any time in the dental setting. This comprehensive lecture-based course will provide dental professionals with essential knowledge, skills and practical strategies to effectively recognize, respond and manage a variety of common medical emergencies to ensure patient safety.

Course Objectives:

- Implement strategies to prevent medical emergencies through thorough medical history review and patient assessment.
- Gain familiarity with essential emergency equipment and medications.
- Formulating an emergency plan.
- Utilization of emergency training.
- Effectively utilize emergency equipment and medications typically found in office emergency kits.
- Implement Team approach and effective communication.
- Understand to need for MOCK Drills and Simulation.
- Recognize early warning signs and symptoms of medical emergencies commonly seen in dental practices.
- Establish and implement standardized emergency response protocols tailored to the dental office environment.
- Recognize and Manage the most common medical emergencies that occur in the dental setting.

BIO:

Dr. Thomas Lenhart is a Dentist Anesthesiologist and a Diplomate of the American Dental Board of Anesthesiology. He has been in private practice for more than 28 years providing mobile ambulatory office-based anesthesia (MOBA) for “special-needs” children & adults
